25X1A7b

1. [redacted] has withstood the unusually large number of separations and suspensions during the current month with only slight additional curtailment of operations. The volume of material disseminated by the "Daily Report" was reduced from September figures by approximately three per cent to some 51,000 words daily. [redacted] discontinued its recently initiated daily roundup of radio references to United Nations activities.

25X1A7b

2. [redacted] now provides coverage of eleven Soviet regional transmitters in addition to Moscow. During September more than 100,000 words of Russian or Ukrainian intercepts were translated, tripling the amount of processed material from these languages provided during June, 1947.
